

Belief                      Desire                      Intention

---

This is interesting. I'm going to walk a little bit. There's a lot of grass. It seems like a nice day. There are some birds, I can listen to the water. But depending on where I go, I will listen a little bit less. It seems more calm now. I think I'm going to the top of the hill. I can hear some crickets now. But it seems a very nice day. It's sun out. I'm going to keep on walking a little bit more. It's quite windy from what I can tell. There are some trees. I think we are, I don't know, beginning the spring, something like that. Umm And depending on where I look, I'm going to listen more to the water or less, I think it's quite nice.

There is some shade on the trees too, so I think it's past afternoon. I... I want to keep walking a little bit more. I know I have an objective, but it's quite interesting to see everything. And I'm just following a path. I'm not going outside the path. Maybe I should try to go outside the path. See how it... Breaking the law. Maybe I'm in a place that not a lot of people would go. Quite calm. And I'm a little bit away from the shore, so I do not listen to water that much. I can see the bridge, which I haven't noticed before. I just realized that I'm doing what I usually do, I don't look up. But there are trees, there's the sun there. I usually don't look up that often. The bridge is far, but I'm getting closer to it. And there's some kind of... It's not.. it could be an important island, but something in the water. Maybe from here I can see the bottom. Do I fall if I go there? Okay. It's like I'm seeing the other side that is not the bay. So there's some different kind of trees. And considering I was down there, I didn't notice that this place was quite high.

Lots of plants. Umm Just going to keep on walking forward. so I'm getting closer to the water once again. I'll keep following the path. I think those are containers. Yeah, on the water. I'm pretty close to the bridge now. I'm going to fall. yeah the terrain is a little bit different now so it looks rough terrain. Wow that was weird. I'm gonna do that again. I'm passing nearby a tree and I think I'm right under it and it gave me a different sensation like I was... I don't really go close to the nature that much. So being like with branches around me that it felt very real. like not something I'm used to do. That was nice. Let's try that again. Can I go there? I'm gonna fall maybe? No? Let's see what happens. Yeah, okay. So I'm very close to a cliff which is interesting. Ok, let's see how close can I get... I'm totally just on the cliff... Now I'm going back to the path of just exploring different places. I should try to find the plushie. Ok, three... Back to the path? Nope. Can I go that way? Ok, yeah, back to the path, I believe. Very close to the bridge right now. I think I gotta go back. Is it possible to go that way? Yeah, no, I'm pretty close to the bridge. lots of containers. listen a lot of birds and the waves and I can like depending on where I'll be looking I'm gonna listen to the waves differently which is which is interesting I think I gotta go back to the path.

How close to the water can I go? Yeah, I'm not on top of the hill so I don't listen to the wind anymore. Can I go in the water? Probably not. Oh, I can? That's so nice, It's calm, it gives me like a calm sensation. I

wouldn't imagine going... I was following the path for so long. I was not thinking of trying different things, but it's nice seeing everything from here. Ohh Now I want to reach the... I'm gonna keep walking in the water a little bit. Reach the other side of that... Is that an island? How do I call that? It's kind of a hill. Let's see if I can see the city or other places there. Oh, I think not. I think I reached (the limit)... Yeah. I can't go that much into this direction, I think. I'm going to try going for this other one. I can see Fuji telebi now. which I couldn't see before. And I'm going away from the bridge. Okay, yeah, that's how far I can go, so I'll probably need to go back to the path. How do I go back? I think I'm gonna freeze. Let me see if I can. All right, I need to find a place to go up. which allows me to go. Maybe walking around it so I can get to the shore. Maybe that works. Yeah, I think if I go straight I can I can reach the land one more time. No? I'm just curious if I can go back to the land. But it's interesting. It's quite cool. I like seeing things from this perspective. Not something I would see, I think. There's different rock here. I think some moss on this rock. Can I go up from this side? Yeah, no. Too close to the cliff. I'm listening to the birds again. I think that's a beach. Yes. I'm reaching the land, yay! Can I this time? No. I can see the path that I walked before and I walked quite a while. I want to reach the land. How can I reach it? Okay. No. I came from there. I... Yeah, how can I go? I'm gonna be lost. Nobody's gonna be able to find me and save me. I think I made a very bad decision. What I felt before like this is interesting, this is calm, now is shift to something that I am trying to find a solution, but I'm unable. So I feel like I took a wrong path, like I'm lost. And I feel whenever I'm close to things that are way taller than me, like I'm seeing a pretty tall rock. It gives me a weird feeling, like not pleasant. Maybe that's just the way I am. If I were to go up, how could I? I couldn't go to the shore this way. If I keep walking... I think I'm going to be in the water forever.
